

## ACC Mortgage and Incenter Appraisal Management team up to deliver a great appraisal experience.

IAM puts appraisers first, so they put you and your borrowers first.

### We're only as good as our appraisers. We attract the best by:

- Paying them within 24 hours
- Giving them the best tools in the industry for free; no tech or upload fees
- CrossCheck automated review and USPAP adherence keeps their work flowing through
- Incredible communication and responsiveness

### RemoteVal® reduces appraisal turn times from weeks to days:

- Unlike other solutions, RemoteVal keeps appraisers in control
- Conduct a live site visit through property contact's smartphone
- Built-in measuring tape makes it easy to determine square footage/GLA
- RemoteVal for Desktop: generates floor plans with walls and enables third party data verification
- Appraisers are so much more efficient; and yet they are still collecting their own data and photos

Contact Aaron or Sean to get set up and learn more about Incenter Appraisal Management's best-in-class tools and service.
